*Nyerere National Park is estimated to have one third of all Tanzania's African Hunting Dog and the highest concentration in all of Africa. The landscape is predominantly flat and covered with miombo trees. Lions and leopards join the Hunting dogs as prevalent predators in the reserve and there is a good variety of prey animals from wildebeest and buffalo to smaller animals like warthog and impala. The river supports a rich and varied bird life, the banks providing a nesting bank for the bee eaters and fishing grounds for Kingfishers.*

## DAY 5 | RUAHA NATIONAL PARK

An early walk or game drive brings you back in time for breakfast and the departure back to the airstrip for the onward flight to Ruaha National Park.

**Flight No 02 (times may vary with schedule requirements)**

**Departure Time: 11:00 Arrival Time: 13:00**

One of Ruaha River Lodge's guides will greet you at the airstrip and take you to the lodge and help you check-in.

*Ruaha National Park is the second-largest national park in Tanzania and is located in the centre of the country. This magical place lies in the convergence zone where northern and southern hemisphere birds and mammal species overlap, resulting in an overwhelming number of birds (530 recorded) plants (1400) and a large number of mammal species. The Great Ruaha River is the lifeline of the park as it is its only permanent water source.*

*A full day game drive along the river takes you over rocky kopjes, home to the Greater kudu, Roan antelope and elephant, and winds down along the river bank through open plains, perfect for cheetah, herds of buffalo, warthogs, jackals, bateared Foxes – the list is endless. The lion population here is now so large (largest in Tanzania) that they have gained film rights for their prowess at hunting Giraffe – which is not their traditional fare. The river banks are rich with birdlife, hippos and crocs. For the more adventurous, above the escarpment lives the more elusive Sable Antelope.*

*Ruaha also boasts a well-developed road network, with plenty of different routes to explore for morning game drives before returning to the lodge for lunch. Time spent on your veranda at the water's edge, or sitting in one of the 2 bar areas will be an equally enjoyable part of your safari here where the animals wander in front of your room to come down to drink. Finish off your day with an afternoon drive to the hippo pool and catch the African sunset over the plains.*
